ELECTRIC
PLUS

The Plus is more than just a part of our name:

Professional – Our experienced staff has the knowledge and skills you expect from an electrical contractor. Our electricians are qualified to handle any of your electrical needs.

Logical – Electric Plus looks at your project from an analytical standpoint. Our experts will review your project with you and offer suggestions to improve the quality or offer cost saving ideas without compromising the integrity of the project.

Unique – Electric Plus empowers our field supervisors to make project related decisions to avoid delays or communication errors. We strive to constantly update our customers on their project status in an effort to provide complete customer satisfaction.

Safe – Electric Plus is a MICCS safety contractor. Our employees continuously receive safety training to ensure they have the most current safety knowledge.
